

# utopia

/ju:'təʊpiə/

*noun*

an imagined place or state of things in which everything is perfect.

## **Thesis Abstract**

Utopia will be the first-ever **self-sustaining, crowdsourced, & crowdfunded** cryptocurrency and **social enterprise** built upon the *true governing laws of the Universe*.

In a World where only Truth can prevail, Perception is *everything*, because there are Multiple truths as much as there are Multiple Dimensions within One Universe.

## **Disclaimer**

This paper is built *solely* on the structure of Logic and Reasoning. I call this my '*personal bible*'. As much as I personally believe in **spirituality**, I do not wish to impose on you my personal views. I am spiritual but not religious, because I am a free-thinker. All I wish, is for You to be Aware. Last but not least, please be aware of my intentions as you *read* and *understand* this personal and **philosophical thesis**.

In order for one to have a logical and objective reasoning, one must always remember to remain in *context*. Remember this, all truth can be discerned through the act of asking because all the answers are within you. With logic and reasoning, you can discern all truth because we can all be correct at the same time and exist in equilibrium with nature. Why is this so? Because perspective is everything. This paper is about Utopia in the context of cryptographic currencies, but if this was philosophy, this would have been an academic paper.

This paper is for educational purposes only. Start asking questions.<sup>1</sup>

### The secret rule of awakening:

0 The Key to Awakening is Awareness.

1 All there is to know is Knowledge.

1 Everything else is Perception.

### **(v) Appendix**

## **0. True Universal Laws**

Infinity-Loop  $\infty$  Law

*Everything* is **Perspective**. The Infinity-Loop can be perceived in all ways, and still hold True in all perspectives. This is because everything is connected. All is based on the Binary matrix.

Why is everything connected? Because there's a reason for everything.

Why is there a reason for everything?

Does there have to a reason for everything?

Probably not. But point here is, everything can be reasoned.

Regardless of the answer, my goal is to set you thinking, to get you to finally Awaken and start off on your sprint towards your life's mission. The Infinity-Loop is a *tool* that can be easily used to manifest reality. It is nothing, but it is something. At the same time, it's simply a representation, a perception, of a **thought process**.

Artistically, infinity has most commonly been represented with a symbol  $\infty$ . Because words can only express so much, true meaning is easier to be derived from art. Within my personal belief system,  $\infty$  represents equilibrium and balance.

## **1. Math & Binary**

Most humans will agree that Math is the language that governs our Universe. Is this true? Yes.

A second set of humans may also agree that Universe is structured in a Binary system, similar to The Matrix. I agree with this view. In this paper, I refer to it as the Binary Matrix<sup>2</sup>.

## **2. Quantum Theory & Fractals**

What does Quantum Theory represent?

The simplest way of explaining would be to discuss the Schrodinger's cat experiment<sup>3</sup>. In this experiment, Schrodinger demonstrated how the binary is made of not just two numbers (zero or

---

<sup>2</sup> Within this Binary Matrix, only 2 mathematical equations hold True. The [constant e](#), and [Euler's equation](#).

<sup>3</sup> Schrodinger's Cat & Quantum Theory. <http://youtu.be/IOYyCHGWJq4>

one), but in fact represents a binary matrix of infinite fractals and possibilities stacked atop of, each affecting the other, purely based on the existence of **One**.

Why can this hold true?

Because everything affects everything else, hence all is connected. Do you believe that everything has to happen for a reason? Why, or why not?

**Everything has to happen for a reason.** For without reason, there is no equilibrium.

The 0th law is the infinity-loop, the binding law that forges all other laws in place. It starts with 0, then there was 1, and that is everything, yet nothing. Everything is nothing, and nothing is everything, both at the same time. All are connected to all and none, however, none can exist without the other, for without the other, there is only one or none. Most importantly, All is connected. *Such is the complexity of the Binary Matrix.*

When we stack the Law of Attraction onto this current perspective, we may be able to understand a little better. You attract all that you are. By being, you become. You become, simply by being aware. If you believe subliminal messages can affect our physical reality, then it should hold true that the mere act of writing the text in bold as above, sends a ripple from our thought reality into our physical reality, hence making the sentence itself true.

Are you sure?

All is one, and one is all. Yet at the same time, everything is *only* Perception. Hence, everything *must* happen for a reason.

I am sure, but are you? By asking a question, you will get an answer. But how do you get the Truth? Ask the right question. Therefore, you can always eventually find the Truth by asking a question.

### **3. All is Frequency**

Bible: In the beginning was the word.

Regardless of the bible, we can all relate to creation. In terms of math, how can 0 become 1? The logic is based on universe's governing laws and observing how the universe works, while the reason lies in creation. Don't take the word for what it literally means, but rather know that the word is a representation of something.

Considering that the word is the first thing there ever is, it is highly probable to be have been said as opposed to being written. Assuming word is sound, then all is frequency. Because all is one, sound and frequency both represent waves.

#### **4. Ancient Teachings**

Preachers of the past all say the same thing. Be it Jesus, Buddha, Ghandi, Mandela or Pleiadians ; they all tell the same story. The word is that **Love** trumps *all*.

Maybe Jesus married Mary Magdalene.

Maybe the pyramids were thought out in a higher dimension and simply manifested into our physical third dimension.

Perhaps humans were created through the genetic modification of apes for their own higher purpose.

Who cares? And who really knows?

What matters is this: they all tell the same story. Everything else is perception.

#### **5. Utopia is simply an idea**

Utopia exists. Whether or not you agree, that is your perception. But I can prove that it exists. Lets start with a question.

Assumption: Money can exist with Utopia.

What is more important? Utopia or Money?

The question is irrelevant. The context we have here is to prove Utopia exists. How can we do that on a common ground? With Logic and Reasoning, while we're in the same perspective. Even if you do not share the same perspective as me, Utopia can still exist.

Why? Because Utopia is a thought. And thoughts can be manifested into reality. UtopiaCoin is proof itself that Utopia can exist. Maybe not in your reality, but in my perspective it sure does.

## **6. What does this have to do with cryptocurrency?**

Bitcoin<sup>4</sup> sparked an era of decentralization. What you choose need not matter. But what you do affects all else.

This whitepaper is the Proof-of-Utopia (PoU), which will be utilized for all future projects falling under the arm of Utopia. Utopia will be the One and *only* decentralized, **self-sustaining** cryptocurrency and **social enterprise** built upon our *true governing laws of the Universe*.

Utopia is a product of collaboration between Quantum Holdings (QTM) and Erasmus University Rotterdam. With PoU in place, both Quantum and Utopia will reach the fullest potential of what it sets out to be. Simply because I have written it here.

And such is the results of being able to fully utilize a simple tool. There is but one tool. The infinity-loop  $\infty$ . But it doesn't have to be the *only* tool. You have to seek knowledge, change your perception, unlock your potentials, and the key is to find your personal tool to aid you as you run along. A tool should be as simple as a thought.

Then, when you are aware, everything you say, do and fully become, will eventually be. You can manifest, just as I did. I'm no different from you, I just did what I had to do. But more importantly, what are **you** going to do?

Life is a game and #lifeiseasy. If you believe, then we can build one Utopia. #ProofofUtopia

## **7. Proof-of-Utopia (PoU)**

If all is perception, truth can be discerned via reasoning every time. Why can this hold True?

Because truth is subjective. Your truth is yours, and governed by perspectives. However, there is but One True Truth. And that lies within the folding-over of realities within realities; the fractal nature of Universe. This universal Truth governs all.

What about other reasons?

All is one and one is all. Every piece of knowledge we pick up can be used to identify exactly how the world works. This is akin to how the atoms rotate in the same way as a planet, how birds can fly as if with an invisible hand guiding them to move as one. It lies not in any duality or singularity, but in a pattern; the pattern of nature.

What is the pattern of Nature?

No, not the math you learned in high school. It is the Math within the Binary Matrix. Because All is One and One is All, this specific Math is the universal *language* that governs **all of creation**. The secrets have been deceptively hidden in plain sight for ages. The secrets to life are everywhere, if you can only open your *eye* to see.

What does this have to do with Utopia?

**Nothing and everything. It is everything, because I have proven Utopia. While it is nothing, because there is none yet. But that's not all; for All to exist, there must be an infinite balance of love & harmony in order to produce a utopian synergy for the One.**

## **8. Teach Man to fish**

The secrets to life are all laid out in plain sight.

Nobody is a novice. We all have something to teach. And when one teaches, two learn. So teach, and learn. Because knowledge is the beginning and the end. There is no end to **knowledge**, as with **truth**. You can never have more truth, or more **hope**. What you can never have, is what keeps you going. *Seek that which you do not know and you shall find.*

*All you need to know is this; truth, love and light is everything. But there are also other 'everything's'. Look for balance in life. Love trumps all because family is first, friends second. All else are arbitrary. There is no past, no future, only now. So live in the now. That's the best way. Teach, live, and learn. Wake up and get going, don't just walk, run. Find hope and faith. Choose your path, then go with it; the journey need not matter.*

## **9. Synchronicity & the number 9**

It is, because it was made out to be. By whom, you would ask. By you. According to ancient knowledge, 9 represents the end and is also the most important number<sup>5</sup>.

How is it that possible that my personal bible ends with the most important number in the universe? Coincidence?

There are no coincidences. It is because I made it out to be. If I am right about everything I believe in, then everything must happen for a reason, and the reason makes it happen.

Void of reason, to have all manifestation run at maximum capacity is an impossible occurrence. When you have no awareness of the reason, the best will not make itself out to be. If this holds true, then the ecosystem in question is not in equilibrium with itself and hence unable to manifest infinitely & synergistically. If an ecosystem is not balanced in equilibrium, that also means that it is not yet All, not yet One. Therefore, considering a binary world of math and fractals, everything should happen for a reason so that infinity can potentially be achieved. And vice-versa, because of the infinity-loop  $\infty$  that binds All else as One.

<sup>5</sup> Ancient Knowledge: Number 9 Code. <http://youtu.be/ZG4dRUOWwtg>

## **Appendix**

All the truth that we seek, can be found within us. Hence seek and ye shall find.

Utopia is possible, because this is possible. If money is the root of all evil, it no longer has to be. Since Bitcoin, every idea can be backed up with funding, via cryptocurrency.

If we want to attain Utopia, we first need to seek Knowledge and Truth. If thoughts can create reality, we can manifest thoughts into the physical 3rd dimension matrix. we are now on our way to the 4th dimension, because the precession of the equinox has begun, and all the planets have aligned to signal that it is now.

What is said in this paper is but one small part of a very powerful tool that has been kept secret for ages. Kept so secret that we never bothered stopping to ask an objective question, and seek the truth.

Why do i share it if it's so valuable? Because this knowledge cannot be misused. Everything is frequency, and all is light. If you are off sync, you just can't manifest at 100%. Period.

There is no utopia without hope. But do not hide in fear, for that's the only way you will lose. At the end of the day, love trumps all. Just like love, light can fully illuminate a room of darkness, while darkness can never eliminate light. There will only be 0 or 1 because all is governed by Math and the Binary Matrix.

It all begins, and ends, with the feeling of awareness. Awareness, is the true and only key to being Awakened. At the same time, Awareness is not the only way to Utopia. Because All is Perception.

I say this with such confidence because I am awake. I awakened on the 17th of July 2014. In 3 days, I manifested 26 years worth of thoughts and experience into reality. This, is Utopia. I believe, therefore I am. What do *you* believe in?

You are One, and One is All. Never ever forget that.

Call me crazy, but who's crazy now?

-end-
