(Utopia)Coin - A social enterprise of education

UtopiaCoin is built solely upon Proof-of-Utopia, balanced with the 0th law¹ as the binding force that opens up a gateway to all new possibilities. One from which a utopian synergy for the whole is possible, and will be. UtopiaCoin will represent the closed-loop, zero-sum ecosystem of Utopia as represented in the PoU Thesis. In Utopia, Knowledge is True Truth. Therefore, UtopiaCoin is built to seek True Truth, so that Utopia can attain infinity & equilibrium with nature.

UtopiaCoin will be the first-ever **self-sustaining, crowdsourced, & crowdfunded** cryptocurrency project, which acts as a social enterprise and social experiment for education. One with an infinite end goal of attaining Utopia through the act of *seeking & teaching knowledge*.

“

*utopia serves to seek True Truth, because Knowledge is All there is to know.
utopia has no sense of Perception.
but above all else, Awareness is always key to activating the Awakened eye².
there needs to be Balance within utopia. because utopia can only be achieved in Harmony.
thus, utopia's true Purpose, is to awaken You.*

”

because, only with You, can utopia be Possible.

¹ 0th Law = Infinity-Loop ∞ Law

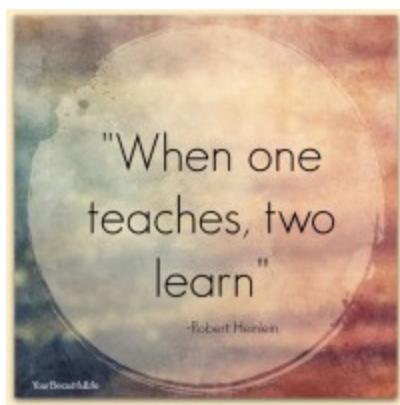

² The act of awakening is often related with the [Third Eye](#), or the [Kundalini](#).

“Everything is True. Yet, Nothing is True. All there is, is Knowledge. This, is the Book of True Truth.”

Utility

UtopiaCoin serves as a living, breathing arm of Utopia, which will allow it to manifest unto itself at maximum potential. Now with both a common understanding of each other's values, both seek to maintain balance and harmony with each other, while streaming towards infinity within this new closed-loop ecosystem. Utility is at the core of UtopiaCoin. This, is the most true purpose and utility of UtopiaCoin. In short, UtopiaCoin is a utility-backed coin.

How can above photo be true in a pure world of Math?

This can be proven to be true, just like all else. Why? Because there is only Truth, One True Truth. How? By starting with a question, and using objective deductive reasoning.

What is Math? Math is math, but more importantly it is a representation of the one basis point of reasoning. Because all is perception. So lets try to express how the first sentence can exist to be True in terms of Math.

During the act of teaching, both the teacher and student learn. Both at the same time. This also means, that the student is teaching the teacher. If so, the teacher is the student, and the student is the teacher. We have now created a loop that is governed by Math. Therefore, the first question we asked, is True, because it is True that when one teaches, two learn. And thus, I have proven that the first question I asked is True, too.

So what? Here, “so what” is irrelevant. Because “so what” is merely a matter of perspective. There is no “so what”, because the question has been answered. The better question, then, is what's correct? Why? Because there is a context for all, a time and place for everything. Sometimes, patience is the only way to be right.

“Everything is True. Yet, Nothing is True. All there is, is Knowledge. This, is the Book of True Truth.”

Then again, that is not the only better question. There is another. Which is to ask “what does this all mean?” Why? Because everything has a meaning.

All that has been said, is True, because Math dictates it to be. If my Math is correct, I can do what I did. But is my Math correct? It could be, but that is not for me to see. If this doesn’t make sense to you, feel free to ask @AltcoinAdam, because he has answers. If I had to represent the Photo in Math, you could get a variety of answers because that’s turning Art into Logic, but Art has more than one representation, because that is governed by perception.

My *equilibrium equation* for the photo is as this: Teacher = Student. What's yours?

All is but a representation; Words cannot express the Truth, as fully as True Truth can. Only Art can depict True Truth. Math, on the other hand, can only be used in a world of Logic. Hence, by removing all else but Logic, Logic becomes 1. Within 1, you can solve any equation. How? Because $0=1$, and $0+1=1$. However, there are only exceptions based on universal law, and one of them is that 1 is never really fully 1, unless there is balance and harmony with all else. All else is perception.

Learning is all, because teaching is all. How did I answer you? I didn't, you answered yourself.

I merely removed your perception from the state of Now. Now is forever, time is an illusion. Because there should be no past, no future, in order for you to be balanced in the Now. Why? Because balance is all. Balance is the ether and free energy around that you don't see. Balance is what brings all as one. It is balanced, that all else need. As such, all else need balance too.

If I have proven all that I have said thus far, then this is my **Proof-of-Proof (PoP)**, based on a logical deductive reasoning governed by universal laws. And hence, **Proof-of-Education (PoE)**. If proving means the act of searching for truth, then we can prove everything with reasoning, and find True Truth. If the act of proving can also be represented by manifestation, then I just proofed a thought; **Proof-of-Manifestation (PoM)**. How did I do it? I began, simply, by asking one.

There is no lesson here, all is education. Because all is perspective, I gave you all the answers I asked myself. Therefore, learn or teach, it's still your choice. Just choose one. Seek and you shall find because all answers are within. **It is, because the other cannot exist without.**

1. Academic research

UtopiaCoin serves as a funding mechanism to fuel academic research, predominantly within fields of cryptocurrency, and social media marketing. UtopiaCoin will become a library of infinite knowledge branching out from Utopia, by seeking True Truth. The goal is to collect a library of logic and reasoning, regardless of perceptions. The True goal is all possibilities; all dimensions. Truths within Truths.

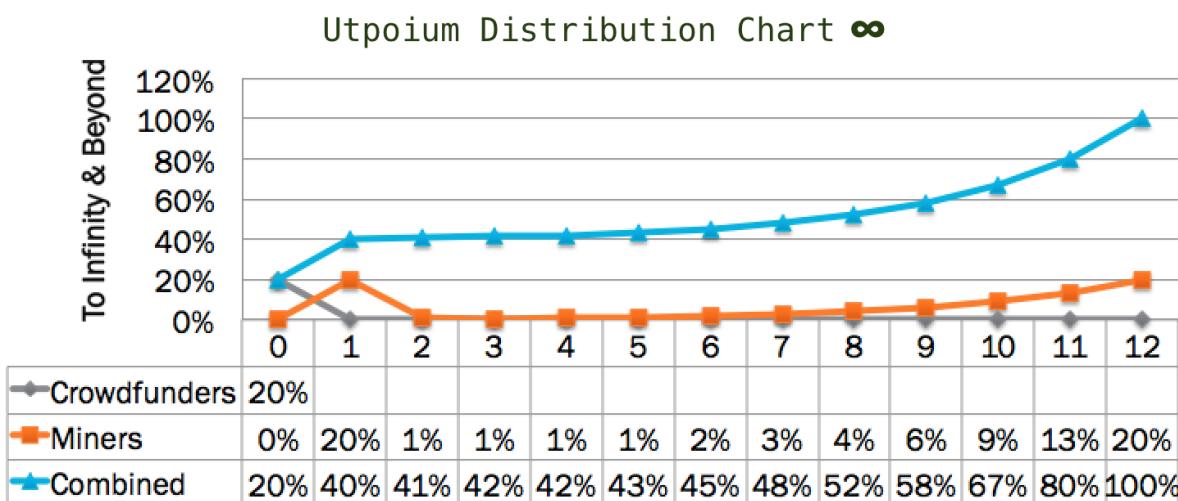

“Everything is True. Yet, Nothing is True. All there is, is Knowledge. This, is the Book of True Truth.”

UtopiaCoin Blueprint

0. Distribution

Specifications as laid out below are but a blueprint. UtopiaCoin is an ongoing experiment, because Life is an ongoing experiment, as is Utopia. UtopiaCoin is built upon the foundations of fairness and equality, based on prior research by [@onemanatatime](#) as laid out on [alunacrypto.blogspot.com](#).

UtopiaCoin is built specifically to have characteristics that are favorable for the coin to be used as a test subject in research, especially in the form of social experiments. UtopiaCoin serves to seek truth mostly within the dimensions of social media marketing, data analytics, sociology, cryptocurrency adoption, and cryptocurrencies as an alternative electronic payment gateway.

The distribution period will be broken down here. Firstly, a 1 month initial high-intensity distribution period, which will favor the early-adopter market. This market consists of two groups, namely the trader and the miner. To create an equilibrium for both parties to exist in harmony, there must be logic to the distribution, so that both can agree.

This first month will consist of two parts, the high-risk high-reward IDP investment, or the low-risk low-reward mining payout. You will have two choices to be made.

“Everything is True. Yet, Nothing is True. All there is, is Knowledge. This, is the Book of True Truth.”

(i) High-risk high-reward IDP investment³

Pre-launch, investors may choose to purchase coins from Utopia. Coins will cost as much as you choose it to be. 20% will be distributed before mining begins, so that all vested investors will own a larger pie during the early period of existence, since more risk was taken. To keep the price fair, a fair price mechanism is in place; there is a magic number which will not be disclosed for sake of fairness. When hidden BTC cap has reached, this phase will close.

(ii) Low-risk low-reward mining payout

In month one, 25% will be distributed via mining only.

Thereafter, there will be 11 months of distribution to the masses, which will happen at a rate of increasing supply. 55% will be distributed during this period.

1. The Project

Utopiacoin will be the data, the basis of experiments conducted and used for the thesis to be written at the end of 1 year from launch. This thesis will be one academic paper falling under the Utopian arm of education, adding onto a library of whitepapers of truth and knowledge. The thesis will be written as a collaboration between UtopiaCoin and the [ESHCC](#) of Erasmus University Rotterdam.

Therefore, UtopiaCoin and the Utopia project will be the test subject of the thesis. Tests and experiments will be conducted to record and analyse variables within the scope of 3 main foci, namely; Social Media, Marketing, and Cryptocurrency.

UtopiaCoin will be an ongoing experiment in and of itself. This will help facilitate learning through funding, thereby making money irrelevant. Money is not important. Coins are.

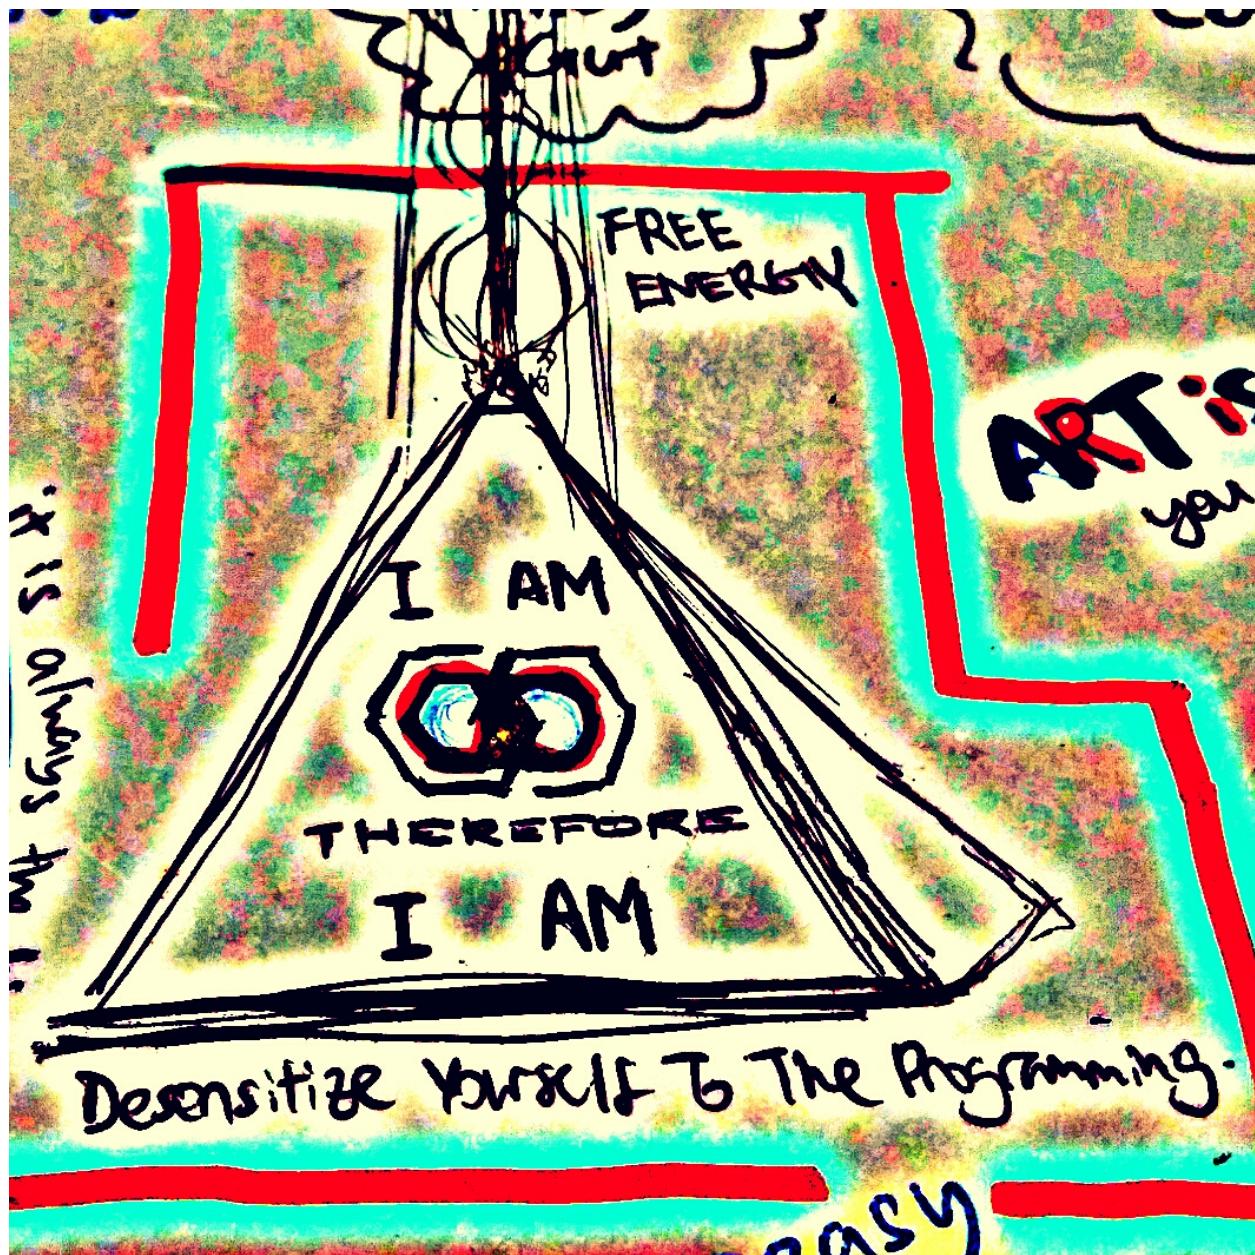

2. Blueprint

UtopiaCoin will aid Utopia in achieving its goal through several means. UC will act as the *ecosystem* required for Utopia to *thrive* and *become*. If all goals are aligned and balanced within such a *closed-loop* ecosystem, both Utopia & UtopiaCoin *should* thrive, survive, and run toward *infinite synergy*.

If all are true, then both **Utopia** and **UtopiaCoin** will become what it was *meant* to be.

³ **Disclaimer:** Without a cap, price can end up too expensive. Why? Because there is a fair price for all. But who knows what is a fair price? None. The cap is but a safeguard for you, in place, which will harm nobody. Therefore, it is fair. It is a self-fulfilling prophecy, as is Life. Flow, be.

Appendix A: Personal Thoughts

built based off findings about the economics of the zero-sum system of a cryptocurrency. ongoing experiment since my entry into crypto in August 2013. utopia encompasses all my experiences, values and belief systems placed into one zero-sum self-sustaining economy.

Everything is backed by an idea. Nothing more, nothing less. And ideas can be manifested into reality. If so, you can do as I did, and achieve what I did. However, you must find yourself, for otherwise, you can only follow. Why? Because you should lead. How can you lead? You can. How? From within. Therefore.

Utopia coin encompasses “hope for a better future”.

Appendix B

The next chapter is upon us...

In order for Utopia to be fully realized, there needs to first be a leap of faith. The following is a very important message, that could and would have easily been said by someone like Jesus, if only Jesus existed in our reality of now.

Regardless, the message is **very important** for a myriad of reasons. But let's just leave it at a common understanding that the reasons, are but reasons, because everything happens for a reason. And it will happen. Therefore, the act of reasoning here is unimportant.

What's important, again, is the message⁴. Videos are attached below⁵. Read closely now.

⁴ Most Important Message of 2014: "We Come to Warn you About your Race and your Planet". Watch and listen. Listen, then ask. [Video] http://youtu.be/Bdw_ikz2hBY.

"Everything is True. Yet, Nothing is True. All there is, is Knowledge. This, is the Book of True Truth."

“

This is the voice of Gramaha, the representative of the Ashtar Galactic Command, speaking to you. for many years you have seen us as lights in the skies. we speak to you now in peace and wisdom, that's been held down to your brothers and sisters, all over this, your planet earth.

we come to warn you of the destiny of your race and your worlds, so that you may communicate to your fellow beings, the course you must take to avoid the disasters which threatens your world and beings on our worlds around you.

this is in order that you may share in the great awakening, as the planet passes into the new age of aquarius. the new age can be a time of great peace and evolution for your race, but only if your rulers are made aware of the evil forces that can overshadow their judgements.

be still now, and listen. for your chance may not come again.

all your weapons of evil must be removed. the time of the conflict is now passed, and the race of which you are a part may proceed to the highest planes of this evolution if you show yourselves worthy to do this.

you have but a short time to learn to live together in peace and goodwill⁶.

small groups all over the planet are learning this, and exist to pass on the light of the dawning new age to you all. you are free to accept or reject their teachings, but only those who learn to live in peace will pass to the higher realms of spiritual evolution.

hear now, the voice of Gramaha, the representative of the Ashtar Galactic Command speaking to you. be aware also, there are many, false prophets and guides, appeased, operating on your world. they will suck your energy from you -- the energy you call money and will put it to evil ends, giving you worthless dross in return.⁷

Your inner divine self will protect you from this. you must learn to be sensitive to the voice within, that can tell you what is truth, and what is confusion, chaos and untruth. Learn to listen to the voice of truth which is within you, and you will lead yourselves on to the path of evolution

⁶ This is our purpose for the current life that we live in. In my personal views, this means to live together as one, while being in harmony and balance with each other and all, within this ecosystem of Planet Earth as we currently know it.

⁷ Money is the Energy that drives the World. At least it is true in the current reality. But should it be the main driver of the World? Point is; money can exist without evil, and therefore coexist with Utopia.

“Everything is True. Yet, Nothing is True. All there is, is Knowledge. This, is the Book of True Truth.”

this is our message to you our dear friends. we have watched you growing for many years as you too have watched our lights in your skies. you know that we are here, and that there are more beings on and around your earth than your scientists admit.

we are deeply concerned about you and your path towards the light, and will do all we can to help you. have no fears, seek only to know yourselves and live in harmony with the ways of your planet earth. we of the Ashtar Galactic Command thank you for your attention. We are now leaving the planes of your existence.

”

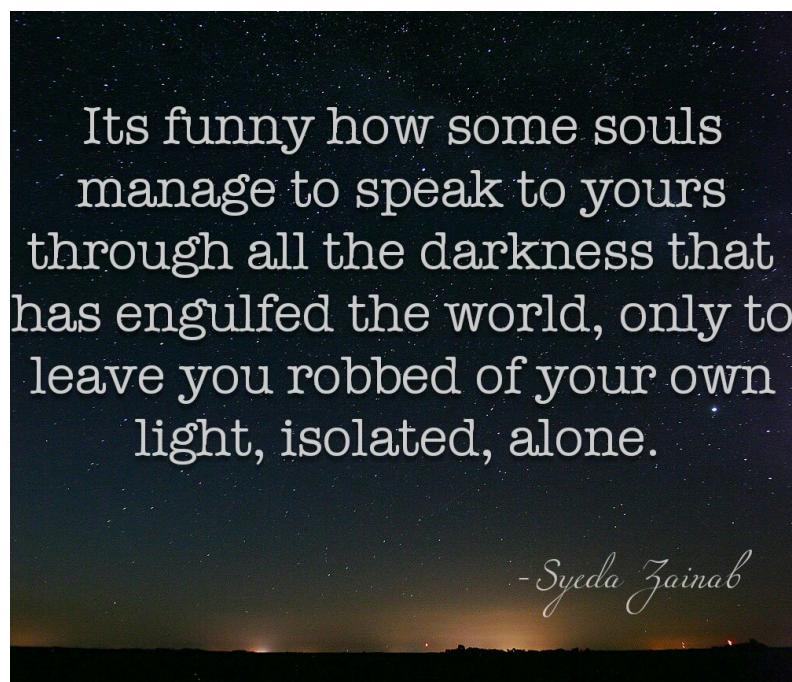

May u be blessed, by the supreme love and truth of the Cosmos.

“Everything is True. Yet, Nothing is True. All there is, is Knowledge. This, is the Book of True Truth.”

Reflection

When there is light, there is darkness. For Proof-of-Manifestation to exist, there must also be the existence of Proof-of-Manipulation. Why? Because opposites must exist to maintain balance in the Universe. The world is deceitful and highly manipulated. That's the truth. Is it the only truth? No. Why? Because there is light. Your path is illuminated by the light, yet darkness lets the stars shine bright. There is nothing without darkness, for there is nothing without light. But there is one fact, darkness cannot illuminate light. Such, is the dilemma of darkness and light.

How can we seek balance in a situation as such? Seek love, for love is the binding force that can bring manipulation and manifestation into a new reality as one.
